

# Seasonal Influenza (Flu) Vaccine Screening and Consent Form 2023-2024

## Section 1: Patient Information

|                      |   |                                    |
|----------------------|---|------------------------------------|
| Name (First & Last): | Health Card (OHIP) Number:  |                                    |
| Preferred Name:      | Date of Birth:  | Weight<br>(if under 18 years old): |
| Gender Identity:     | Gender Associated with your Health Card (for billing purposes):<br><input type="checkbox"/> M <input type="checkbox"/> F <input type="checkbox"/> X |                                    |
| Address:             | Telephone:  |                                    |
|                      | Emergency Contact<br>(Name, Phone Number, Relationship):  |                                    |

## Section 2: COVID-19 Screening Questionnaire

| Question  | Yes | No | Unsure | Question   | Yes | No | Unsure |
|---|-----|----|--------|--|-----|----|--------|
| Have you been fully vaccinated against COVID-19 (at least two doses)?   |     |    |        | Have you been in contact with someone that tested <b>positive</b> for COVID-19 in the <b>past 14 days</b> ?  |     |    |        |
| Has the patient been sick in the past few days? Does the patient have symptoms of COVID-19 or have a fever today*?<br><br>* Symptoms of COVID-19 can include fever, new onset of cough or worsening of chronic cough, shortness of breath, difficulty breathing, sore throat, difficulty swallowing, decrease or loss of smell or taste, chills, headaches, unexplained tiredness / malaise / muscle aches, nausea / vomiting, diarrhea or abdominal pain, pink eye, or runny nose or nasal congestion without other known cause. |     |    |        | Have you travelled outside of the Canada within the last 14 days?  |     |    |        |
|   |     |    |        | Are you >70 years old with delirium, unexplained or increased number of falls, worsening chronic conditions? |     |    |        |
|   |     |    |        | In the last 10 days, have you received a <b>COVID Alert exposure</b> notification on your cell phone?        |     |    |        |

## Section 3: Influenza Screening Questionnaire

| Question  | Yes | No | Unsure | Question   | Yes | No | Unsure |
|---|-----|----|--------|--|-----|----|--------|
| Are you <b>sick today</b> ? (fever > 39.5°C, breathing problems, active infection)  |     |    |        | Are you <b>allergic</b> to any medications including vaccines?   |     |    |        |
| Are you <b>allergic</b> to any of the following? Latex, thimerosal, formaldehyde, TrintexX100, neomycin, kanamycin, gentamycin, polysorbate 80, CTAB (Cetyltrimethylammonium bromide), sodium deoxycholate, sucrose |     |    |        | Have you ever fainted or had a serious reaction (including anaphylaxis) to any previous injection or vaccine(s)? If yes, please describe the reaction: |     |    |        |
|   |     |    |        | Have you had a severe reaction to <b>eggs</b> or <b>egg products</b> ?   |     |    |        |
| Are you or do you think you might be <b>pregnant</b> ?  |     |    |        | Do you have a <b>new</b> or <b>changing</b> neurological disorder?   |     |    |        |
| Have you had <b>Guillain Barré Syndrome</b> within 6 weeks of getting a flu shot?   |     |    |        | Do you have <b>bleeding</b> a <b>bleeding condition</b> or use <b>blood thinners</b> ? (e.g. warfarin, aspirin)  |     |    |        |

## Section 5: Patient Information

I, the client, parent or guardian, have read or had explained to me information about the flu shot. I have had the chance to ask questions, and answers were given to my satisfaction. I understand the risks and benefits of receiving the flu shot. I agree to wait in the pharmacy for 15 minutes (or time recommended by the pharmacist) after getting the flu shot.

I am aware that it is possible (yet rare) to have an extreme allergic reaction to any component of the vaccine. Some serious reactions called "anaphylaxis" can be life-threatening and are deemed medical emergencies. If I experience such a reaction following vaccination, I am aware that it may require the administration of epinephrine, diphenhydramine, beta-agonists, and/or antihistamines to try to treat this reaction and that 911 will be called to provide additional assistance to the immunizer. The symptoms of an anaphylactic reaction may include hives, difficulty breathing, swelling of the tongue, throat, and/or lips. In the event of anaphylaxis, I will receive a copy of this form containing information on emergency treatments that I had received, or a copy will be provided to my agent or EMS paramedics.

☐ I confirm that I want to receive the seasonal influenza vaccine **OR**

☐ I confirm that I want my child **2 years of age or older** to receive the seasonal influenza vaccine

|                                      |                          |              |
